Washington Flora Checklist

A checklist of the Vascular Plants of Washington State
Hosted by the University of Washington Herbarium

Family: Juglandaceae

4 terminal taxa (species, subspecies, and varieties).

The Washington Flora Checklist aims to be a complete list of the native and naturalized vascular plants of Washington State, with current classifications, nomenclature and synonymy.

Taxa included in the checklist:

* Native taxa whether extant, extirpated, or extinct.
* Exotic taxa that are naturalized, escaped from cultivation, or persisting wild.
* Waifs (e.g., ballast plants, escaped crop plants) and other scarcely collected exotics.
* Interspecific hybrids that are frequent or self-maintaining.
* Some unnamed taxa in the process of being described.

Family classifications follow APG IV for angiosperms, PPG I (J. Syst. Evol. 54:563?603. 2016.) for pteridophytes, and Christenhusz et al. (Phytotaxa 19:55?70. 2011.) for gymnosperms, with a few exceptions. Nomenclature and synonymy at the rank of genus and below follows the 2nd Edition of the Flora of the Pacific Northwest except where superceded by new information.

Accepted names are indicated with blue font; synonyms with black font.
Native species and infraspecies are marked with **boldface** font.

Please note: This is a working checklist, continuously updated. Use it at your discretion.

Created from the Washington Flora Checklist Database on March 28th, 2024 at 12:33pm PST.

Dicots:

Juglandaceae [FNA3, HC2] Walnut Family

Synonyms: (none)

References: (none)

Juglans [FNA3, HC2]
Sp. Pl. 2: 997. 1753; Gen. Pl. ed. 5, 431, 1754.
walnut

Juglans ailantifolia Carrière [HC2]
Rev. Hort. [Paris]. 414.
Japanese walnut

Naturalized populations documented in Skamania and Skagit counties. Also frequently naturalized in the lower Fraser River valley of southwest British Columbia. Easily confused with Juglans cinerea.

Juglans hindsii Jeps. ex R.E. Sm. [FNA3, HC2]
Univ. Calif. Agric. Exp. Sta. Bull. 203: 27.
northern California walnut

Plants from one site in Yakima County that appear to be associated with homestead. Report of plants spreading from original planting. Also documented spreading downsteam from an old homestead and naturalizing along Rock Creek in Klickitat County.

Juglans nigra L. [FNA3, HC2]
Sp. Pl. 2: 997.
black walnut

Juglans regia L. [HC2, JPM2]
Sp. Pl. 2: 997.
English walnut
